LIQUID CONDITIONER

- Raises Stabilizer (CYA) in Water to Recommended Level
- Reduces Chlorine Loss Caused by Sunlight
- Rapidly Disperses

Active Ingredients:

Cyanuric Acid.....	24.92%
Inert Ingredients.....	75.08%
Total.....	100%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

MAY CAUSE EYE IRRITATION.
See First Aid and additional precautions on back panel.
SHAKE WELL BEFORE USE.

NET CONTENTS: 1 GALLON

Pool Season® Liquid Conditioner dissolves rapidly to reduce the loss of chlorine in pool water caused by the ultraviolet rays of the sun.

DIRECTIONS

Use a reliable test kit to determine stabilizer concentration in water. If the pool water tests less than 40 ppm (parts per million), add **Pool Season® Liquid Conditioner** to obtain a level of 40-100 ppm. A one gallon container will raise a 10,000 gallon pool's stabilizer concentration 32 ppm.

1. Turn on circulation pump.
2. Shake product well before use.
3. Slowly add entire gallon of **Pool Season® Liquid Conditioner** to the pool in front of a return jet.
4. Rinse container with pool water and shake. Repeat step #3.
5. Re-balance your swimming pool in accordance with the guidelines below.

NOTE: It is normal for the pool water to become cloudy following application for a short period of time. Allow 30 minutes for the pool to clear.

- Maintain pH in the range of 7.4 to 7.6.
- Maintain total alkalinity in the range of 60 to 120 ppm.
- Maintain calcium hardness range between 200-400 ppm.
- Maintain available chlorine level at 2-4 ppm.

CAUTION

Hazardous to Humans and Domestic Animals. May cause eye irritation. Wear safety glasses, gloves and protective clothing when handling this product. After handling, wash hands before eating or drinking. Do not mix with other chemicals.

FIRST AID

IF IN EYES: Hold eyes open, gently rinse with water for 20 minutes. If wearing contact lenses, rinse eyes for 5 minutes, remove lenses and continue rinsing for 15 additional minutes. Seek medical advice from a physician or poison control center.
IF SWALLOWED: Call poison control center or doctor immediately. If able to swallow, have person drink a glass of water.
HAVE THE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CONTACTING DOCTOR OR POISON CONTROL.

STORAGE AND DISPOSAL

Keep contents dry in tightly closed original container.
