

pH DOWN

When pH Tests High, Proper
Addition of **pH DOWN** Will:

- Lower pH of Water to Recommended Level
- Contribute to Optimal Sanitizer Performance
- Help Prevent Scale Build Up

Active Ingredient:

Sodium bisulfate 93.2%
Other Ingredients 6.8%
Total Ingredients 100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER:

POISON – CAUSES SEVERE BURNS

See first aid and additional precautions on back panel

This product is a granular chemical designed to slowly lower the pH of swimming pool water. It is safer to handle and use than liquid acids such as muriatic (hydrochloric) or sulfuric.

DIRECTIONS FOR USE: Read entire label and use strictly in accordance with precautionary statements and directions. Balance total alkalinity in pool water to 80-125 ppm for plaster finishes and 125-150 for vinyl, fiberglass and other non-masonry finishes. For most efficient performance of pool chlorine, pH should be maintained between 7.2 to 7.6. Use a reliable test kit to determine pH. If the test shows a pH above 7.6, add this product to pool water using the chart below as guide.

APPROXIMATE USAGE CHART

If pH Reading is:	7.2-7.6	7.7-8.0	8.1-8.4	Above 8.4
Add pH Down for each 10,000 gal.	Acceptable Range	3/4 lb.	1-1/4 lbs.	1-1/2 lbs.

To add this product, broadcast into the deep end of the pool when not in use. Add directly to pool with pump and filter running. Never add more than 1.5 pounds of this product per 10,000 gallons of pool water at any one time. Allow pool water to recirculate two hours and retest pH. Repeat treatment as necessary. Newly plastered pools may require frequent treatments for the first few weeks while the pool is "curing". Do not add near metal fittings nor allow pH to drop below 7.2. Do not allow undissolved lumps to remain on the pool bottom. These can be broken up by brushing or other means of agitation.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS: DANGER: POISON: Causes severe burns. Corrosive. Causes skin and eye damage. Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wear goggles or safety glasses and rubber gloves when handling this product. May be irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse. For skin or eye contact, or of dust is inhaled, immediately follow First Aid statements. Do not mix with other chemicals.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call poison control center, or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Note: This product upon contact with water (or moisture in eyes) forms a weak sulfuric acid solution and may cause burns to eyes and skin. Flush affected area thoroughly with water. Do not use chemical antidotes or neutralizing solutions.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
