

# Got Plaster Dust?

Introducing A Brushless Startup with Startup-Tec®

**Startup-Tec® provides a nearly brushless, dust-free startup with little or no acid usage ... in just 3 days!**

Startup-Tec® "PK 3-Day" Process revolutionizes startups with advanced technology by replacing labor-intensive and acid-dependent methods providing superior finished results.

- ✦ Prevents most plaster dust formation and laborious brushing.
- ✦ Provides mottling-free discoloration on grey and colored pools.
- ✦ Eliminates "hot-startup" process to expose aggregate finishes.
- ✦ No more "acid washing" process to expose pebble finishes.
- ✦ Protects new finish with 4 to 6 months scale and stain protection.
- ✦ Advanced multi-polymer formulation without phosphates or acids.
- ✦ Helps reduce warranty issues, lawsuits, and service call-backs.

*Startup-Tec® creates an aesthetically pleasing finish on white, grey, quartz, and pebble type surfaces.*
